NGUYEN DINH HAU

LinkedIn | +84985822877 | dinhhaudrm@gmail.com | GitHub

Software Engineer with 3+ years of experience in front-end development. A fast and adaptive learner, willing to learn new technologies.

Experience

Software Engineer
07/2022 - Present
Hitachi Digital Services Viet Nam — Ho Chi Minh, Viet Nam

- As a key contributor, I played a crucial role in designing and implementing a Trusted Network Service platform for Japanese customer.
- Collaborated closely with PM and cross-functional teams to deliver high-quality features, **ensuring 90% unit and integration test coverage**. Conducted thorough code reviews and documentation for robust code quality
- Successfully transitioning the project from testing phase to acquisition by customers, **with over 2k users in Japan and Taiwan**
- Designed and developed a groundbreaking feature for **uploading large datasets (+100k rows) with a 50% time optimization**, ensuring exceptional performance across the system.
- Collaborated with cross-functional teams to implement WebSocket-based solutions, fostering real-time interaction, **contributing to a 30% increase in user engagement**.
- **Increase performance by 40%** by optimize endpoint, API calls, and lazy load FE renders.
- Demonstrated mentoring capabilities, reviewing code for team members and training assisting two interns, **both of whom successfully passed the competency assessment to join the project.**
- Utilized: React, Node, MySQL, MUI, Typescript, Javascript, Elasticsearch, Socket.io

Software Engineer
11/2021 – 07/2022
Titan Technology Corporation — Ho Chi Minh, Viet Nam

- Working mainly on the Audit Engagement Platform for companies with the simplest end-to-end audit, review and complication solution anywhere.
- Conducted regular evaluations of feature impact, actively contributing to the optimization of the codebase for both existing and upcoming functionalities.
- Collaborated with UX/UI designers to implement a web-first design approach, **resulting in a 30% boost in user engagement.**
- Utilized: React, MUI, Typescript, Javascript.

Software Engineer Intern
05/2020 – 12/2020
Cybersoft — Ho Chi Minh, Viet Nam

- Spearheaded the development of a responsive and user-friendly dashboard, **resulting in a 25% improvement in user satisfaction scores**.
- Implemented design-to-code processes, ensuring a smooth transition from design assets to actual front-end components, **reducing development time by 20%.**
- Utilized: React, SCSS, TailwinCSS, Typescript, Javascript, Figma.

Skills

- **Programming Language**: ReactJS, Javascript, Typescript, SQL, NodeJS.
- **Technologies:** MySQL, NestJS.
- **Other:** Git, Docker, Jenkins.

Education

Bachelor of Computer Science	**HCM University of Technology and Education**	**2017 - 2021**
